*Conditions apply

Awarded the best new accessory in the year of its release, The VapourTech Upholstery Cleaning System is still a best seller.

Designed to prevent over-wetting, The VapourTech cleverly releases ample amounts of water onto the fabric, lets it skim across the surface, then draws the water and waste away.

The VapourTech removes stubborn stains and marks, and can be easily connected to any carpet extraction machine.

This tool can be used on a variety of applications such as lounge suites, car interiors, curtains and stairs.

1 VapourTech Head
 Awarded best new accessory in the year of its release, VapourTech upholstery Cleaning System is still a best seller.

2 Custom Length Hose
 Integrated 3m, 7.5m or custom length to suit your requirements

- 1 VapourTech Head.** The ergonomic design allows for easy use and the robust design means the tool will far outlast any stainless head tool on the market. The stainless steel slipper cover can be replaced once worn without replacing the whole tool, which means the VapourTech is a tool for life! With maximum airflow in mind the VapourTech design is the most streamline upholstery tool on the market, with no right angles in the head it leaves upholstery dryer.
- 2 The VapourTech utilises 38mm (1 1/2") G-Vac vacuum hose** which can be customised to suit your needs. It comes standard as a 3mtr assembly but can be made up to 15mtrs in length, great for car detailing applications.

100% Australian Made
